I am writing with a brief update for members on progress with the Development Project.

Planning application for the housing site

Robertson Homes Limited (RHL) submitted their planning application on 31 January 2019 and it is now live on the East Dunbartonshire Council (EDC) website. The application number is TP/ED/19 /0067 and you can look at the detailed application papers on the EDC website.

In tandem with their planning application, EDC asked RHL to carry out an archaeological dig on the land sale site. This work was completed in February and while the final report from GUARD is still awaited we are advised that the dig revealed no significant findings.

RHL have also completed their site investigations.

The Club's planning application

The Club's planning application is advancing and will be submitted as soon as possible after a final meeting scheduled with Historic Environment Scotland towards the latter part of the month.

Specialist advice is being taken from JBA Consultants on how a flood alleviation scheme can be incorporated at the point where the burn which runs beside the existing sixth medal tee enters the culvert adjoining the houses at Golf View. An initial report from JBA has now been received and will be reviewed in detail with EDC at a meeting later this month.

As explained in the Development Project Paper approved by members at the SGM held on 26 September 2018, the planning process will now run until the latter part of the year and we remain hopeful of all planning matters being concluded towards the end of the year. As ever, lot of work is going on behind the scenes.

With the Season Opening event on 30 March not far away I wish all members an enjoyable 2019 golf season.

Yours sincerely

Doreen Adams
Captain
